**This is a tentative outline of class work and homework assignments during the 5th Six Weeks.
More assignments will be given as time permits.**

Upcoming Dates to Remember:

Wednesday, February 27, 2008—4th 6-WEEKS REPORT CARDS GO HOME!!!

Friday, March 7, 2008—Abbreviated ½ Day!!!

Tuesday, March 11, 2008—PROGRESS REPORT GO HOME!!!

Monday, March 17, 2008 – Monday, March 24, 2008—Spring Break!!!

Thursday, April 10, 2008—END OF 5th SIX WEEKS!!!

Remember to check teacherweb.com for any extra credit assignments and/or announcements

STUDY NOTE: Spend at least 1-hour per subject, per day, reviewing what was discussed that day in class.

Reread or even rewrite your notes.

Review your vocabulary everyday.

So that you will not forget, write down questions concerning the things you did not understand so that you can ask me (or any other teacher) the next day.

Learning is a daily process. If you take a proactive approach to **studying everyday** and doing **your assignments yourself**, you **will** see an **improvement** in your test scores, assignment grades, and overall average. You **will not** see an improvement if you consistently and continuously copy from someone else and “**cram**” 6 weeks worth of information the day before or the day of an exam.

Announcement: **This assignment sheet is tentative and may be changed based upon your understanding of the various concepts of Chapters 4, 5, 6, 13, 14 & 15. These are very interesting topics that we can have fun reviewing and discussing in class. Reading the sections and completing Bell Work, Class Work and Homework assignments will allow us to accomplish all of our goals during this six weeks period.**

By signing below, you have read and understand the expectations for your child in this class and my expectations for you to receive credit and grades for all assignments.
