

AP and IB Psychology

Summer Assignment

All AP and IB students must get the book *40 Studies that Changed Psychology*.

If you cannot find one on Amazon.com or a book store, I will leave some in the office at school for you to CHECK-OUT that belong to the school. Please sign your name and be responsible for returning it on the first day of school.

We found that both IB and AP final exams/College Boards used these studies. These are really interesting readings that students should enjoy, getting their first taste of Psychology on the college level.

Assignment: Read the first eight (8) studies (one each week) and take notes. Be ready for a quiz during the first week of school.
